THE CATHEDRAL BUILDERS OF THE MIDDLE AGES By Alain Erlande-Brandenburg. The great cathedrals of the Middle Ages overwhelm us by their imagination, technical daring and sheer scale. How could such structures be built when cities had only a few thousand inhabitants and only the most primitive machinery was available? Through records that exist today, and drawings and details from miniatures, we are led into the world of the medieval master mason. Fully illus. most in color. 176 pages. Thames & Hudson.
