- **2915529** INTO THE HEART OF OUR WORLD: A Journey to the Center of the Earth: A Remarkable Color Book of Scientific Discovery. By David Whitehouse. An exhilarating and extraordinary adventure vividly charting the mysteries of the deep Earth, the history of our planet, and the latest discoveries about its inner core. 16 pages of photos, some color, 270 pages. Pegasus. Pub. at $27.95

**3769663** SEEDS OF RESISTANCE: The Fight to Save Our Food Supply. By Mark Schiappo. In this eye-opening expose, the author takes us onto the front lines of a struggle over seeds, that will determine the long term security of our food supply in the face of unprecedented climatic change. Schiappo exposes the gigantic stake the earth’s most important resource. 184 pages. Hot Books. Pub. at $21.99 $4.95

- **3721213** FRACKPOLY: The Battle for the Future of Energy and the Environment. By Wenonah Hauter. Describes how the fracking industry began; the technologies that make it possible; the destruction and poisoning of clean water sources and the release of harmful radiation from deep inside shale deposits, creating what the author calls “sacrifice zones” across the American landscape. Illus., 364 pages. New Press. Pub. at $27.95 $6.95

- **2930978** TIPPING POINT FOR PLANET EARTH: How Close Are We to the Edge? By A.D. Barnosky & E.A. Hadly. What happens when vast population overgrowth endangers the world’s food supplies? Or our water, energy needs, climate, and environment? What happens if some or all of these become endangered at once? We still have the chance to avoid the tipping point, but this window of opportunity will shut within 10 to 20 years. 264 pages. St. Martin’s. Pub. at $25.99 $5.95
